Large Double Flowering Peonies

ONCE planted they will last a lifetime with little care. They grow from one to three feet high, producing magnificent blooms, which sometimes almost surpass the beauty of the Rose. Another point which is largely in their favor, is the fact that the plants are never attacked by either insects, animal or fungal diseases. Peonies will succeed in most any kind of soil, but give best results when planted in a deep rich and somewhat moist loam.

AGIDA. Medium sized, double, midseason; the most near scarlet of any red Peony. Price, 75 cents.

FRAGRANS. Solferino-red with slight silvery reflex. Compact, bomb type, strong vigorous grower, medium size, late. Price, 75 cents.

FESTIVA MAXIMA. About the largest and undoubtedly the most popular Peony of them all. High built flowers borne on long stiff stems, the purest white, inner petals slightly tipped carmine. Early. Price, 75 cents.

EDULIS SUPERBA. Very soft salmon-pink, changing to bluish white. Blooms habitually in broad clusters and makes a fine bedder. Price, 75 cents.

MADAME CALOT. This is the freest flowering of all Peonies. It is known in Holland as the Glory of Boskoop. Flesh white, shaded salmon; large convex flowers, fine buds, extra for cut flowers. Price, 75 cents.

JULES CALOT. Color distinct from all others, bright carmine-pink, with crinkly tips of silvery-white. Immense, loose, rounded heads borne in profusion. Price, 75 cents each.

OLD FASHIONED GARDEN PEONIES

ROSEA. Deep cerise-pink. Price, 50 cents each.

One each of the Old-Fashioned Peonies, red, white and pink, for \$1.25.

VESTAL'S ROSES

FOR FALL PLANTING—The advantages of planting Roses in the fall are many. Then the ground is rich with fertility, and the plants will at once take root and become

firmly established. The following spring they will have an earlier start and will produce an abundance of choice flowers throughout the season, while the growth of spring planted stock will be checked and it will require some time to become rooted. Let us urge you to plant Roses this fall. They will reward you next summer by blooming freely. We are glad, therefore, to make this special offer of extra large plants, all properly pruned and ready for delivery as soon as the wood is thoroughly ripened, which is usually early in November. These varieties have been selected with the utmost care, and we firmly believe they can be had anywhere. They may be planted any time before the ground freezes hard; give the soil about the roots a light protection over winter. A SLENDID OPPORTUNITY TO GET CHOICE ROSES OF YOUR OWN SELECTION AT ONE-HALF PRICE. MANY ARE NEW AND RARE.

SPECIAL NOTICE—Plants can only be sent by express, purchaser paying transportation charges. **PRICES:** For fall planting we offer only our largest sized two-year-old plants.

Double Narcissus Von Sion, True Double Yellow Daffodil

Giant Narcissus or Trumpet Daffodils

OF all bulbous plants, the Daffodils will stand more vicissitude of soil and climatic conditions than any other class. All they need is a good start to make themselves naturally and gloriously "at home" in any location. Their delicate scented flowers are very welcome in the winter pots and boxes; but out-of-doors, in garden, lawn, or woodland, they find their greatest perfection.

Some of the Narcissus bloom as early as the Crocus, making the garden look very cheery and bright with their gold color in Spring. The flowers assume many forms and present many charming combinations of white, gold, primrose orange, sulphur and pure yellow. HYACINTHS are among the most popular and satisfactory hardy flower bulbs grown. Their wax-like bell-formed flowers, borne in buxom trusses, are a matchless beauty and also delightfully fragrant. The colors, shades and tints are wonderfully varied, from purest white through blue, pink, rose, etc., to deepest red and from daintiest porcelain through blues to black purple, from cream through yellows to orange and rosy apricot, etc. Hyacinths succeed in every soil, or in bowls of prepared water, or throughout the winter, grown either in pots or soil, or in bowls of prepared fibre, while for gardens or bedded on the lawn they are gorgeously effective when in flower during the spring.

HOW TO GROW BEAUTIFUL HYACINTHS

IN THE OPEN GROUND.—Plant in the fall, 6 inches apart each way and 3 to 4 inches deep. Give them slight protection over winter, and in the spring, after the flowers are gone, the bulbs may be removed in time to set your summer flowering plants.

IN POTS OR WINDOW BOXES.—Plant the bulb in the pot so that its crown just shows, then set away in a cool, dark place for six weeks or two months for root-growth to develop. After this, bring gradually to the light, heat and air; give plenty of water.

Giant Narcissus or Trumpet Daffodils

OF all bulbous plants, the Daffodils will stand more vicissitude of soil and climatic conditions than any other class. All they need is a good start to make themselves naturally and gloriously "at home" in any location. Their delicate scented flowers are very welcome in the winter pots and boxes; but out-of-doors, in garden, lawn, or wildwood, they find their greatest perfection.

Some of the Narcissus bloom as early as the Crocus, making the garden look very cheery and bright with their gold color in Spring. The flowers assume many forms and present many charming combinations of white, gold, primrose orange, sulphur and pure yellow. Some are quite fragrant; all are very hardy, with the exception of the clustered Polyanthus varieties, which though extensively grown for cut flowers are not for outdoor planting.

habit and unsurpassed for gardens, pots or forcing. Early and extremely free flowering. Price, 10 cents each; \$1.00 per dozen.

VESTAL'S BEAUTIFUL DECORATIVE FERNS

THE BOSTON FERN

For hanging baskets or single specimens in pots or baskets it is superb. We know of no other plant that withstands ill treatment better, or thrives so splendidly under good care. It does equally well in sun or shade outdoors during summer and presents an imposing appearance indoors during winter. It forms an immense number of graceful drooping fronds varying in length from two to five feet, which arch over like plumes in every direction, and which are always of a fresh, healthy and beautiful green color. *Price, strong plants, 35 cents each; larger, 30 cents each; extra large, 50 cents each.*

SMITHII FERN. A greatly improved Ostrich Plume Fern, with extremely finely cut fronds, could be rightfully described as Baby Breath Fern. It is of compact form, fronds on wiry stems that do not break down in center. This variety will have a wonderful sale. *Prices, 35c, 50c, 75c and \$1.00 each.*

VERONA FERN. Makes a good plant in any size, much finer frond than any created Fern except Smithii. We consider it one of the best of the newer varieties. *Prices, 35c, 50c, 75c and \$1.00 each.*

NORWOOD FERN. A dwarf compact form of Whitmanii, carrying its fronds stiff and erect on wiry stems that do not break down. Makes ideal specimens. Called by some florists Fluffy Ruffles Fern. Very showy. *Prices, 35c, 50c, 75c and \$1.00 each.*

NEPHROLEPIS WHITMANII

Not only is it of dwarfer and more compact habit than the Elegantiissima, but the leaves being more deeply divided, gives the plant a much more graceful appearance, while another important point in favor of the Whitmanii is the fact that not a single frond has ever reverted to the common Boston Fern. We offer strong young plants, 15 cents each; 4 for 50 cents. Strong, handsome four-inch pot plants, 35 cents each.

By Express at 50 cents, or by Mail, postpaid, at 60 cents

THESE beautiful plants for home decoration vie with the Palms for first place in the esteem of flower lovers. They are finely cut and oddly shaped. Ferns give a graceful effect produced by few other plants and they do exceedingly well in the parlor and conservatory. The Nephrolepis family, of which the well known Boston is a member, has furnished us many beautiful species of late years. We recommend all the varieties listed.
